Inspired by the French Renaissance and elements picked up from the Ports of Portugal, the Llac & Grey upholstery collection from **Address Home** for diwali has the right tone of world class sophistication. The colour palette includes muted shades of lilac and grape merged beautifully with warm beige grays. The patterns are a mix of contemporary floral vines and selective geometry and some with abstract indigenous influence. The richness of texture is brought out with the mix of velvets with silken surfaces. Immaculate computer quilting, machine thread embroidery, hand-embellished surfaces and metallic transfers remain the techniques that binds together this amazing collection for the coming fall.
