COVER STORY

In collaboration with 59 master craftsmen from across India, Jaipur based brand Fanusta brings you one-of-a-kind collection of handmade artefacts for home and living. The brand's design team is always travelling and on the lookout for unique and unknown art and artisans. With its refreshed look, it is celebration of the age-old Indian crafts and the skilful hands of craftsmen. While curating, these artisans are also provided with the opportunity to learn, co-create and innovate in order to cater the market trends and demands.
